Washington, D. C. Dec. 31.-Some startling conclusions are set forth in a report drawn up by Dr. Arthur McDonald, specialist to the United States Bureau of Education, for the information of Congress. One of them is that within the last 30 or 40 years there has been an increase, relative to population, in crime, suicide, insanity and other forms of abnormality." In giving his opinion of some of the causes for this increase, Dr. McDonald says:

For a number of years he had been afflicted with chronic entarrh and having recently been thoroughly cured of his old affection, an interview was obtained with him by one of our reporters in which he gave the following statement to the public:

CHICAGO, ILL., Aug. 6, 1900. The Peruna Medicine Co., Columbus, O.: Gentlemen --- "It gives me great pleasure to testify to the merits of such a worthy remedy for enterth as your Peruna. I had suffered for a number of years from this very disagreeable disease and had tried many so-called remedies, but until I used Peruna none had the desired effect.
